

# **60 AMP Stand Alone**

## **Pump Service**

The Following items are required to obtain 60 AMP Stand Alone Pump Service for vacant land:

1. Well Permit from the Health Department; and  
*(The ONLY exception to this is when water is being pumped from an alternate water source such as a pond and there will be no well. In such a case, a letter from the Health Department is required which states there will be no well and therefore their well permit is not required.)*
2. Water Use Permit from South Florida Water Management District OR a Waste Water/Septic Permit from the Health Department.
3. Affidavit for Electric Service for a 60 amp service for FPL or Glades

**NOTE: *If the service requested is for the purposes of livestock or irrigation, the customer must go to South Florida Water Management prior to going to the Health Department***
