He stated that the unit met appearance and design standards and that it would be compatible with the area.

Agenda Item # 4: Public Hearing, Petition R-2017-0709, Change in Zoning. Coker Cattle Corporation, property owner; Sake LLC, applicant. Request for a change in zoning from the existing classification of Planned Development (PD) to the proposed classification of Neighborhood Commercial-1 (NC-1). The property is located at the southwest corner of the intersection of SE 32nd Street and SE 18th Terrace.

Mr. Royce presented the petition and described the surrounding area. He stated that the subject property is a one-acre parcel located on the southwest corner of the intersection of SE 32nd Street and SE 18th Terrace. He stated that the property on the south side of Charles W. Harvey Memorial Highway was rezoned to Planned Development (PD) a few years earlier, but that the project anticipated to be built with that zoning did not happen.

He stated that the subject property is in the Urban Residential Mixed Use future land use classification and that it is at the intersection of two collector roadways. He stated the regulations allow for consideration of neighborhood commercial zoning on collector roadways in the Urban Residential Mixed Use future land use classification. He stated that Neighborhood Commercial-1 (NC-1) is one of the less intense commercial zoning districts, intended for small commercial nodes on arterial or collector roadways in the Urban Residential Mixed Use future land use classification.

Mr. Royce stated that although the requested zoning is consistent with comprehensive plan criteria, he had some concerns about that particular location and a change in zoning at this time. He stated that while the change in zoning might not be considered spot zoning, it still would be an isolated zoning district and not part of a larger development plan. He noted that the site is directly across the street from a large single family residential neighborhood.

Mr. Royce stated that staff recommends that the Planning Board recommend that the Board of County Commissioners deny the request for a change in zoning from Planned Development (PD) to Neighborhood Commercial-1 (NC-1).

Chairman Ted Kelchner asked for comments from the Board.

Board member Rob Willson asked if the current zoning was legal with the land use now and if it was still considered Agricultural. He continued by asking if the corridor has a limitation

on trucks and commercial vehicle weight limits. Mr. Royce stated that there are no official weight limits, but signs are posted to discourage truck traffic.

Board member Mitchell Hancock asked if, upon the rezone, they could do anything other than adding the ice dispensary to the subject property. Mr. Royce then listed all the permitted principal uses for the Neighborhood Commercial-1 (NC-1) zoning district.

There was some discussion about when it may be appropriate for the property to be rezoned to a commercial district.

Chairman Ted Kelchner opened the public hearing.

Dean Irvine, nearby property owner, addressed the Board. He stated that he is against the change in zoning and expressed concerns over road damage due to trucks driving on a passenger-car subgrade. He also stated that he felt there would be issues with the ingress and egress to the subject property because access points would be near the intersection and in turn lanes.

Judy Breedlove, nearby property owner, addressed the Board. She stated she is against the change in zoning and expressed concerns over increased traffic and safety issues.

Nick Underwood, nearby property owner, addressed the Board. He stated he is against the change in zoning. He stated that there is currently a large problem with traffic accidents in the area and fears that the increased traffic would cause more safety issues.

Romona Simpson, nearby property owner, addressed the Board. She expressed her concerns of how this rezone could possibly lead to “piecemealing” and stated that she was against the change in zoning.

Cathy Wolford, nearby property owner, addressed the Board. She stated that there are many children in the area and expressed concerns about increased traffic and the possibility of accidents.

Jerry Jones, nearby property owner, addressed the Board. He stated he is against the change in zoning.

Susan Underwood, nearby property owner, addressed the Board. She stated that she was against the change in zoning and expressed her concerns over the potential safety issues.

Sharon Hess, nearby property owner, addressed the Board. She stated that there is no need for any more conveniences within the area and that she opposed the change in zoning.

James Nealis, Minister and President of Okeechobee Christian Church, Inc., addressed the Board. He stated his concerns with the traffic and the potential problems that could occur should the subject property be used for something other than an ice dispensary.

Jeff Sumner, Sumner Engineering Consulting, addressed the Board on behalf of the applicant. He stated that though the recommendation is to deny it, the requested rezoning is consistent with the Comprehensive Plan. He also stated that it would be extremely difficult to place anything other than the ice dispensary on the subject property and that there is no intention to do so.

Members of the Board and Mr. Sumner continued discussing the petition. Board members inquired as to whether it would be possible to add another acre or two of commercial zoning in the future, discussed access issues, and inquired about the distance between the subject property and commercial developments on US Highway 441 SE.

Danny Marsocci, applicant, stepped up to the podium to answer some questions for the Board.

Board member Mitchell Hancock asked if the applicant had considered placing the ice dispensary closer to the Trading Post Flea Market. Mr. Marsocci stated that based on the traffic study they have conducted, it would not work to his benefit and that he isn't going to cause an increase in traffic, but rather capture the existing traffic that flows by the subject property anyway.

Harold Wolff, nearby property owner, addressed the board. He stated that his three main concerns were the traffic, noise, and trash. He stated that he is opposed to the change in zoning.

There were no further comments from the public.

Joey Hoover moved to close the public hearing. Debra Sales seconded the motion. The motion passed unanimously.

There was some additional discussion about the distance from the subject property to the US Highway 441 SE and US Highway 441 South commercial districts.
